

How to set up your BlackBerry 10 on the vsms domain

1. From the home screen, tap **Settings**.

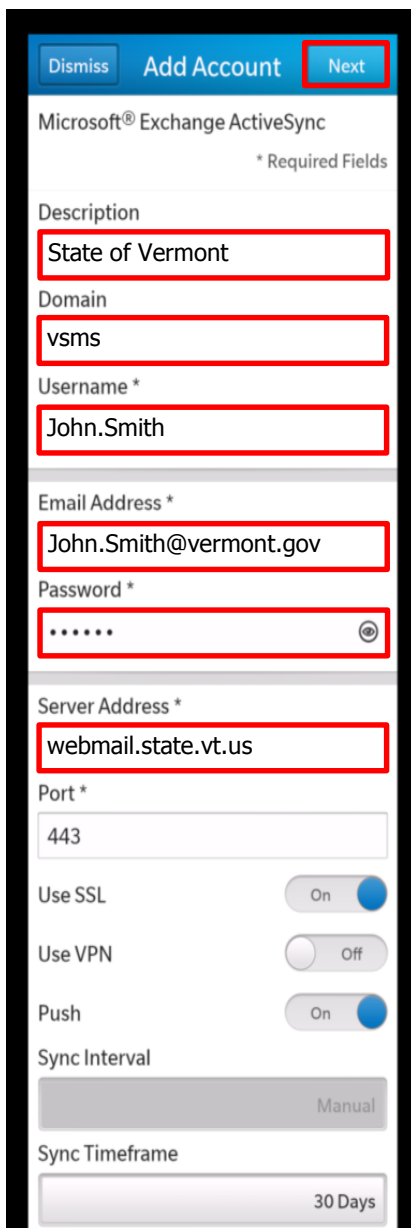

3. Scroll down and tap on **Advanced**.

2. Tap **Accounts**

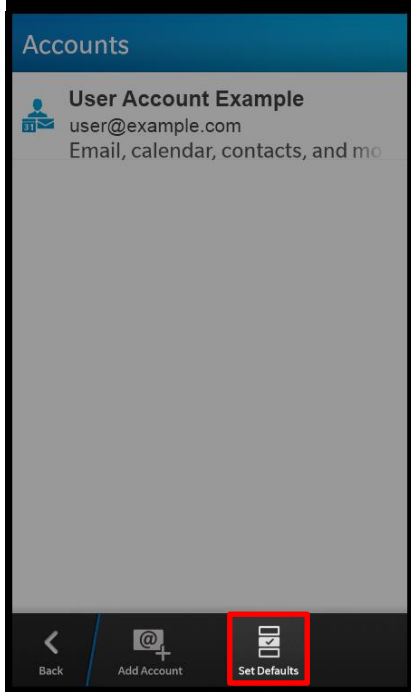

4. Tap **Microsoft Exchange ActiveSync**.

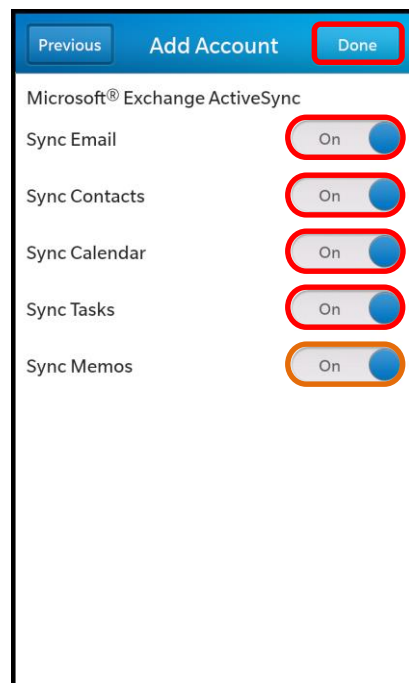

5. Enter a **Description**, the **Domain**, **UserName**, **Email Address**, **Password**, and **Server Address**. Tap **Next**.

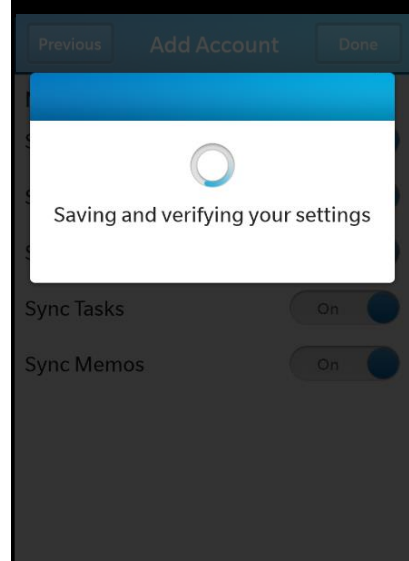

7. Select **Set Default** if you have multiple accounts and you want this one to be the default.

6. Select the elements you wish to sync then tap **Done**. Choosing **Memos** is not recommend as it might cause sync issues.

6a. **Saving and verifying your settings.**

8. Select both the default email account and default calendar.
